

The EYE-LCD Series by eyevis:

High-end TFT LC Displays for visualisation in Control Rooms and Security Centres, for Information and Communication

- ▶ EYE-LCD4000 M/W
- ▶ EYE-LCD4600 M/W
- ▶ EYE-LCD5200 M/W
- ▶ EYE-LCD4200 HD
- ▶ EYE-LCD4700 HD
- ▶ EYE-LCD5702 HD
- ▶ EYE-LCD7000 HD
- ▶ EYE-LCD8200 HD
- ▶ EYE-LCD5600 QHD

EXCLUSIVELY BY EYEVIS: THE NEW HIGH PERFORMANCE TFT LC-DISPLAYS

The increasing demand for visualisation solutions for information and presentation has led to the development of innovative and flexible displays. Perfect presentation technology is also expected where there is not so much space for traditional video walls. eyevis LC displays can be used in any area of application – control rooms, master displays, data centres, video surveillance, process control, points of information and points of sale.

EYE-LCD4000M/W, 4600M/W & 5200M/W – The stackable Versions

Thanks to their narrow bezels the displays from the M/W Series are perfect for the construction of LCD-technology based video walls. Up to 255 displays are cascable within one display wall.

	EYE-LCD4000M/W	EYE-LCD4600M/W	EYE-LCD5200M/W
Screen Size	40" (102 cm)	46" (117 cm)	52" (132 cm)
Resolution	1366x768	1366x768	1920x1080
Brightness	700cd/m ²	700cd/m ²	600cd/m ²
Contrast	1200:1	1200:1	1700:1
Bezel Width	14 mm	15 mm	20 mm

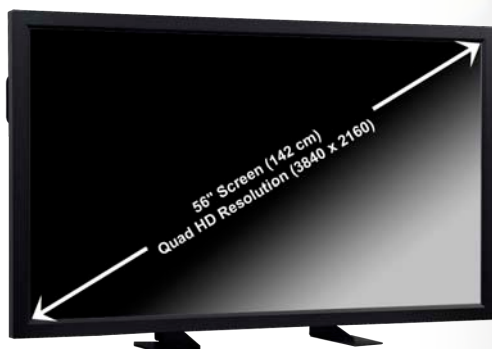

EYE-LCD4200, 4700, 5702, 7000 & 8200 – Professional LC Displays with HD Resolution

The new eyevis HD LC displays are available with screen diagonals of 42", 47", 57", 70" and 82". The displays come with full HD display resolutions and additional functions, such as Picture-in-Picture. Thanks to the adjustable colour temperature the displays can even be used in difficult lighting conditions.

	EYE-LCD4200	EYE-LCD4700	EYE-LCD5702	EYE-LCD7000	EYE-LCD8200
Screen Size	42" (107 cm)	47" (119 cm)	57" (145 cm)	70" (178 cm)	82" (208 cm)
Resolution	1920x1080	1920x1080	1920x1080	1920x1080	1920x1080
Brightness	500cd/m ²	600cd/m ²	500cd/m ²	500cd/m ²	600cd/m ²
Contrast	1000:1	1500:1	1500:1	1500:1	1200:1

EYE-LCD5600QHD – Pin-sharp Resolution to the least Detail

The display has been especially designed for ambitious applications in professional areas. The display offers brilliant colour, brightness and contrast qualities combined with a pin-sharp resolution that meets the demands towards modern visual solutions.

	EYE-LCD5600QHD
Screen Size	56" (142 cm)
Resolution	3840x2160
Brightness	500cd/m ²
Contrast	1200:1

EXCLUSIVELY BY EYEVIS: ONE-STOP LARGE SCALE DISPLAY SYSTEMS

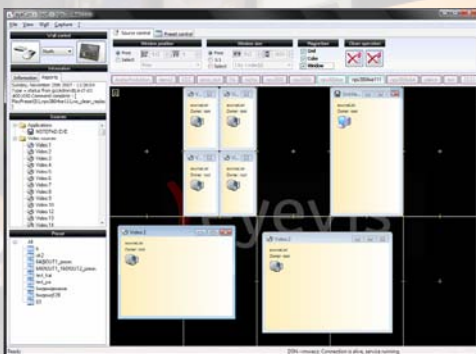

eyevis is one of very few manufacturers world-wide who are able to provide complete one-stop systems. In addition to the displays, eyevis provides graphics controllers for the control of the large screen walls, and a wall management software solution for the administration of the wall content and the connected signal sources. All components are available in different versions. Whatever you expect from your large screen system — eyevis has a solution that fulfils your requirements, of course „made in Germany“.

netpix® Graphics Controller – Top Performance for Perfect Pictures

netpix is a network-based graphics controller for the control of large scale or single projections. Thanks to its MultiScreen facility it is possible to generate any kind and size of desktop surface. This gives the user the possibility to create a coherent desktop surface for the display and control of different sources from network applications, Video and IP Video sources, and data sources. netpix controllers are available in various versions, depending on the number and kind of sources the customer needs to display. For highest availability of the system there are also redundant controllers available. The netpix IP Streaming Video Decoding Boards enable the simultaneous hardware decoding of various different IP Video streams in real-time.

eyecon® Wall Management Software – The Intelligence of your System

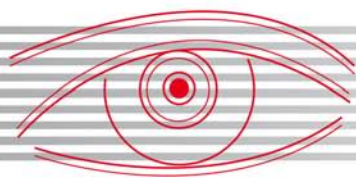

eyevis has developed the eyecon software for the perfect control of your large screen system. eyecon is the wall management software solution that gives your system certain intelligence, many outstanding functionalities and a user-friendly GUI. eyecon is famous for being the leading control software on the market and underlies consequent further development by eyevis to match the latest requirements for perfect visualisation. eyecon is a complete software solution for the simple and perfect control, administration and organisation of large screen displays and all connected signal sources.

Displayracks, Wall Mountings & Accessories – First-Class Installation in Perfection

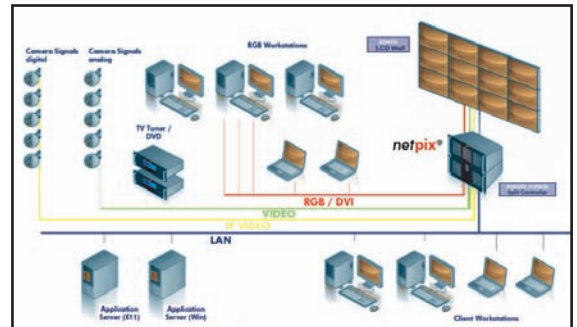

eyevis provides a range of display racks and wall mounting solutions for its EYE-LCD Series. With the adjustable wall mountings all displays can be mounted directly on the building wall. For modular video walls eyevis provides a range of display racks in various sizes. For the displays from the M/W series we also offer stacking frames which allow their simple and fast installation in display racks or the erection of complete modular display walls.

eyevis provides all necessary accessories for the installation of the displays in large scale display systems. Whether you require optical DVI systems, scalars, signal converters, or other devices for perfect functionality of your system — you need it, we have it.

EXCLUSIVELY BY EYEVIS: BEST COMPATIBILITY FOR COHERENT SYSTEMS

Best quality is our foremost concern; we want to provide our customers with most modern presentation technology at a high-quality level. We always try our best to provide our customers with complete systems that guarantee trouble-free operation. All components of our systems are perfectly compatible to ensure reliable long-time operation. Beginning from the displays solution, to the graphics controller and software, to our range of accessories — whatever you need, we have it — complete perfect visual solutions.

We have set up new standards with all of our realised projects. Below you can find an extract from our reference list.
