

Laboratory mixer type HTL

- Application:** powder mixtures
suspension mixtures
drying of humid products
granulation of powders with liquids
- Design versions:** Food stuff industry design; Pharmaceutical industry design;
Environmental industry design
- Gross volume in litres:** 3 l, 5 l, 10 l, 20 l, 30 l
- Net capacity in litres:** 0,5 – 2,4 l, 1 – 4 l, 2 – 8 l, 4 – 16 l, 8 – 24 l
- Design:** charging / discharging by turning the mixing drum at an angle of 180 °
mixing drum removable for easy cleaning
mixing tool adjustable from 0 – 350 r.p.m.
sealing via stuffing box packings or radial shaft sealing or mechanical sealing
material stainless steel 1.4301 / 1.4571
- Options:** chopper (for crashing agglomerates)
jacket for heating or cooling
explosion proof design
pressure and vacuum sealed (-1/+5 bar)
undercarriage on wheels
spraying device for liquid addition
