MSA - A world leader in head protection

Our mission is : "That men and women may work in safety and that they, their families and their communities may live in good health throughout the world"

Since 1914, MSA has been committed to provide high quality personal protective equipment to workers, serving markets throughout the world.

MSA serves a wide variety of markets with a unique range of high performance helmets :

- Fire and Rescue helmets : with the unique Gallet products (F1 and F2 ranges), MSA protects firefighters in more than 80 countries worldwide.
- Law enforcement and Ballistic helmets : supplying head protection solutions to Police and military troops around the globe
- Helicopter and Jet Pilot helmets
- For Industrial head protection, MSA has been a strong market leader in North America for years, and has manufactured over 80 millions hard hats since the introduction of the first product in XXXX

V-Gard Head Protection

Needs

[A solution for each application]

Because the risks are not the same for each task, the correct selection of a safety helmet is important to ensure the security of the workers.

Each helmet provides a different level of protection and comfort depending on the conditions to which the wearer is exposed :

- Prolonged or occasional use
- Static workplace or does wearer move around
- Outdoor or indoor use,
- Exposure to falling objects,
- High temperatures
- Liquid splashes
- Exposure to electrical risks
- Working at height
- Confined spaces or low ceilings

A risk analysis of the workplace and tasks is needed to make sure that the correct equipment is selected and worn.

Providing the proper level of protection and optimal comfort will enable the wearer to focus on the task rather than on the equipment, to increase efficiency and reduce even more the risks of accident and injury.

■ V-Gard

HDPE shell, robust design
High comfort textile, 4-point Staz-on suspension (Fas-Trac ratchet optional)
Built-in 30 mm slots for accessories
EN397 with –30°C and 440V ac optional requirements

Solutions

A wide range of solutions

Your head is your most valuable asset and deserves the best protection.

MSA's range of products offers a combination of style, comfort and features that will match the needs of industrial users.

MSA helmets will protect the wearers from potential hazards evaluated during the risk assessment process, in combination with the following accessories and options :

- helmet mounted hearing protection, with the left/RIGHT unique range
- eye and face protection with a large selection of visors and frames
- neck curtains to reduce the unprotected part of the body, protect from debris, the sun or even the rain
- chinstrap for users with a risk of losing their helmet while working
- winter liner for extreme temperature conditions
- high visibility stripes for enhanced visibility (indoor and outdoor)

With the unique LogoExpress solution, MSA offers the possibility to personalise industrial helmets with a specific logo, either as a branding to promote your company or identify specific roles such as first aiders

MSA your global safety partner

With operations on 5 continents, over 40 international locations and hundreds of distribution partners around the globe, MSA offers a unique range of safety products for a large number of industries.
