safety cabinets in modern laboratory design

**Type 90**

without handles

**Fire resistance (FR) of 90 minutes.**

Safety cabinets with „push-to-open“ wing doors for under-benches to store hazardous substances in working spaces acc. to TRbF 20 Annex L. The new doors open with a gentle push. They are available with automatically moving out pull-out trays and/or bottom trays.

Tested safety at a high level including:

**Tested safety at a high level including:**

- Type testing according to DIN EN 14470-1 by recognized test institutes (TÜV Süd, ift Rosenheim).
- TÜV-tested according to DIN EN 14727 (laboratory furniture standard).
- Classification Type 90 in accordance with DIN EN 14470-1.
- GS / CE mark.
- High Quality mark of approval for upper level style, user-friendliness and increased lifetime.

**Construction:**

- Wing doors, sheet steel, powder-coated.
- Outer carcass, sheet steel, powder-coated.
- Inner carcass made from high-quality decor panels.
- Base optionally in „ToeKick“ or in classical version.

**Interior fittings:**

- Bottom trays and pull-out trays made from powder-coated sheet steel or stainless steel.

**Colour:**

- Wing doors optionally in zink yellow RAL 1018 or light grey RAL 7035.
- Complete carcass in light grey RAL 7035.
- Base in slate grey RAL 7015.
- Individual colour wishes possible.

The new „push-to-open“ wing door technology – especially in combination with automatically moving out pull-out trays – offers a perfect view of the substances stored.

New level of user-friendliness – with the same large storage capacity and standing surface.

Perfectly suited for MPS, i.e. unlocking of the doors via RFID user card possible as well as time-controlled self-closing of the doors.

Containers can be inserted and removed using both hands. In the event of a fire, a thermocouple initiates the closing of the doors automatically.

Under-bench cabinet available with roller set (option), meaning easy installation in existing furniture and equipment.

## in detail

Smooth cabinet surface with large door fronts, simple and easy to clean.

Base with the new ToeKick design, to prevent people from hitting their feet on it.

## push-to-open

**Modern functional design for intuitive comfort of use:**

The doors will open easily with a gentle push on the front.

The highlight: In cabinets with two wing doors, both doors will open at the same time with just one push.
